Nevada City, California
POLICY MANUAL

CHILD CARE POLICY
(Charter Council 1-12-11)

Purpose

Most classes use a child-care provider during their class evening meetings. The following guidelines are set forth to establish who can provide child care at school events.

All childcare providers must be:

- cleared by FBI and DOJ (fingerprinted)
- 18 years of age or older
- on the approved provider list (the office will keep this list).

Rules

- If the provider finds children on campus that are not supervised, the class account will be charged for the unsupervised children.
- Each class is responsible for payment to the provider.
- Classes are responsible for making sure the room or space used for childcare is left in at least the same condition as prior to use.
- Any damaged items are the responsibility of the class.

Fee Structure

The providers will be compensated as follows:

- \$5 per child or
- \$8 per family or
- \$25 minimum for each event

This policy supersedes all previous policies related to Child Care Providers.

This policy is referred to in the Parent Handbook.
